Building a team of 160 talented designers and architects who are making a difference for our clients in Boston and beyond.

Favorite Building:

NVIDIA headquarters in Santa Clara, CA by Gensler.

Ask her about The Boston Ballet

Celebrating Women in Real Estate!

Joy Clark

Proudest Accomplishment:

The new helipad located on top of BWH's 16+ story Patient Bed Tower. The project also involved jumping two service elevators. An exercise in teamwork and critical problem solving.

Favorite Building:

The World Trade Center West Office Building - the first project she worked on as an Engineer with Turner in 2000. It was built before the Seaport District was a "District".

Ask her about what she enjoys doing outside of work!

Celebrating Women in Real Estate!

Audrey O'Hagan

Proudest Accomplishment:

Having the opportunity to own a practice for 12 years and work with great clients in the US, Europe and Asia doing something that I love.

Favorite Building:

Like children, it's unnatural to have favorites although each have their own characteristics which make them unique and special. With that in mind, working with Leggat on the design to renovate their office space within 15 working days was indeed a special time and unique experience!

Ask her about collaborating on their next project to create a unique, 21st century workplace or the next generation of classrooms.

Celebrating Women in Real Estate!

Lisa Brothers

Proudest Accomplishment:

Peabody Square in Boston: Nitsch Engineering designed roadway and intersection improvements while implementing green infrastructure solutions.

Favorite Building:

As an alumna of UMass Lowell, she loves that Nitsch Engineering has been involved in the growth of the campus, working on projects such as the Health and Social Sciences Building with Cambridge Seven Associates.

Ask her about Nitsch being one of The Boston Globe's Top Places to Work!

Celebrating Women in Real Estate!
